|----------------------------------------------|-------------|
| <b>B.Tech – Information Technology</b>       | 2022 – 2026 |
| Indra Ganesan College of Engineering, Trichy | CGPA: 7.25  |

|                                                                        |      |     |
|------------------------------------------------------------------------|------|-----|
| <b>HSC – Raj Matriculation Higher Secondary School, Mayiladuthurai</b> | 2022 | 65% |
|------------------------------------------------------------------------|------|-----|

|                                                                         |      |     |
|-------------------------------------------------------------------------|------|-----|
| <b>SSLC – Raj Matriculation Higher Secondary School, Mayiladuthurai</b> | 2020 | 58% |
|-------------------------------------------------------------------------|------|-----|

---

## TECHNICAL SKILLS

**Strong:** HTML, CSS, Python, Java, UI/UX (Figma), Frontend Development

**Familiar/Learning:** JavaScript, Node.js, React.js

**Tools:** VS Code, Eclipse, MS Office

---

## INTERNSHIP EXPERIENCE

|                                                              |                |
|--------------------------------------------------------------|----------------|
| <b>Web Developer Intern – Eagle-HiTech Softcloud Pvt Ltd</b> | Jan – Mar 2026 |
|--------------------------------------------------------------|----------------|

- Worked on full stack web development using Java.
- Developed application features and improved API integration.
- Built responsive UI components and integrated REST APIs.

---

## PROJECTS

**Portfolio Website** – Built a personal portfolio using React.js and CSS to showcase projects and skills.

**UI/UX Design** – Designed wireframes and prototypes for a mobile application and dashboard using Figma.

**AI-Based Gesture Controlled System with Multi-Macro Automation**

- Built a real-time hand gesture recognition system using Python and OpenCV.
- Mapped gestures to macro automation commands.
- Implemented hands-free system control to reduce manual input.

**AI-Based Intelligent CCTV System for Automated Accident Detection**

- Detects road accidents automatically using CCTV footage.
- Uses AI and image processing to identify accidents and send alerts.

---

## CERTIFICATIONS

- Full Stack Web Development Internship Certificate
- UI/UX Design using Figma

---

## ACHIEVEMENTS

- Presented a project in a college-level hackathon.
- Participated in a technical conference at Indra Ganesan College of Engineering.
